

HEALTH IN TABLETS

MANALIN TABLETS

A very large part of the suffering of mankind is from congestion. If the function of the liver is sluggish the bowels become constipated and the blood is impure. MANALIN TABLETS start the liver going right, clean out the bowels, and restore health to the system. They are as effective as a cathartic, and more healthful. When congestion has become chronic in the membrane, you have catarrh. Prepare the way with MANALIN TABLETS; then use PERUNA TABLETS to repair the damage, dispel the catarrh, relieve the inflammation and build up the system. Together, they mean health in each case—PERUNA is invigorating, you know. Thousands have proved the virtues of these remedies.

Peruna Tablets, 50c; 4 for \$2.50. Manalin Tablets, 10 and 25 cents. All Druggists.

THE PERUNA COMPANY, COLUMBUS, OHIO

Incidents in Society

Mrs. Moulton of New York is the guest of Miss Isabel Mitchell.

Dr. Gerard Jones has been spending a few days in New Haven.

Miss Dorothy Alton of New Haven is the guest of Miss Dorothy Jones.

Harwood Byrnes, who has been spending his vacation at his home in town, has been recalled to Chicago to join the First Field Artillery, Illinois.

THE CRANSTON CO.

A KODAK story of the big event will make any investment worth while.

We carry the full Eastman Line, the best line there is.

THE CRANSTON CO.

Holidays are KODAK DAYS.

At the seashore, in the mountains, by the lake—wherever you and your friends go there is more fun if you Kodak. And afterward the pictures add delight to the Kodak album.

Kodaks \$6.00 to \$77.00, Brownies \$1.00 to \$12.00.

EASTMAN KODAK CO., ROCHESTER, N. Y.

To Increase Playgrounds' Equipment

Success of Recent Membership Campaign Makes Additional Apparatus Possible—Miss Mary McKay Re-engaged as Supervisor—Number of Young Men Supervisors to be Increased

The success of the membership campaign carried on recently has made it possible for the playgrounds association to secure additional apparatus for the local grounds. Such was the report of the treasurer at the meeting of the playgrounds directors in the Board of Trade room at the Thayer building on Wednesday afternoon. The meeting was presided over by the president, John B. Stanton. The treasurer reported that \$12,448 has been raised from the membership campaign. It was voted to reengage Miss Mary McKay as supervisor for the season and the executive committee was empowered to increase the number of young men supervisors as needed and it is quite probable that the present number will be increased. It was also voted to increase the playgrounds apparatus as much as possible from the funds now on hand, which will provide for a material increase. President Stanton stated on Wednesday afternoon that he was unable to announce just what new apparatus will be purchased from the funds as this matter has not yet been definitely settled.

The grounds will open immediately after the Fourth of July and will continue open until the beginning of the Fall term of the local schools.

As in former years the playgrounds association has been voted \$500 by the city for the continuance of the work. This sum was voted at the last city meeting held recently and provides material support for the work.

The playgrounds movement is gaining in favor in Norwich and is meeting with favor in the eyes of many, especially parents who have no yards for their children, as it keeps the boys and girls off the street, placing them under the care of supervisors well qualified for the work. A glance at any of the Norwich playgrounds on a summer vacation day will convince anyone that the children are getting as much enjoyment out of the sand boxes and on the swings as they would rummaging around some back-alley barrel or corner where some prize apples are sold.

The playgrounds movement is not a new one by any means for many of the large cities in the country have well equipped grounds and spend thousands of dollars yearly on them. The boys have athletic teams in a number of instances and hold intergroup meetings for which pennants and banners are offered for prizes. The movement is a worthy one in every respect and well deserves the support of Norwich citizens.

HAD NARROW ESCAPE IN BERSHIRE HILLS

Ford Crashed Into Auto Driven by Dr. Anthony Bernard.

While motoring through the Berkshire hills, Dr. and Mrs. Anthony Bernard of this city narrowly escaped serious injury when an automobile traveling at a high rate of speed crashed into their car badly damaging the front and completely demolishing the other car which was driven by several students from Amherst college. Just after Dr. and Mrs. Bernard had left the town of Chester they were traveling at a rate of speed not exceeding five miles and were rounding a corner when another car coming ahead at a fast speed crashed into them.

The Norwich car was damaged at the front end, the axle was sprung and owing to the fact that Dr. Bernard's car was equipped with a substantial bumper it might have resulted in serious engine trouble. The other car which was a Ford was a complete wreck. All the wheels were smashed and the front end demolished.

VINEYARD WORKERS ENTERTAINED AT PINEHURST

Mrs. Charles W. Gale Was Hostess at Final Meeting of the Season.

The Vineyard Workers of the Central Baptist church held their final meeting of the season on Wednesday afternoon, when they met at Pinehurst, the home of Mrs. Charles W. Gale, on Washington street. There was a good sized attendance and the president, Mrs. C. C. Hildreth, occupied the chair. At the business session the members voted a sum of money for missionary work. A social hour followed and the hostess served delicious refreshments.

USE OF ANTITOXIN PREVENTS LOCKJAW

State Board of Health Recommends It For Powder Wounds.

The necessity of being prepared carries with it the assumption that danger lurks about, says the June edition of the state board of health bulletin. In the present method of celebrating our glorious Fourth, this assumption is not far wrong and preparedness is necessary.

The original method of celebrating the natal day of our country was by firing salutes with cannon manned by soldiers. This has evolved into a conceivable custom in which every conceivable method is employed for making a noise, regardless of life, limb or property.

The state board of health of this method of celebration has at last been recognized and many communities, heeding the cry for a safe and sane Fourth, have effected the restriction of the sale of fireworks. In 1904, 466 people were killed by fireworks on the Fourth of July, but 50 lost their lives.

It behooves the citizen to see that their fireworks ordinances or regulations are strictly observed, or if no such restrictions exist, to see that the state board of health is kept advised of the situation and that the state board of health is kept advised of the situation and that the state board of health is kept advised of the situation.

COMPULSORY MILITARY SERVICE IN NORWAY

Result of the Neutrality Guard Which Has Been Maintained.

Christiania, Norway, June 21.—The so-called neutrality guard which has been maintained by Norway since the outbreak of the war has caused great hardships on the families of many of the soldiers and sailors who have been compelled to serve the country. Not only have numerous men lost their positions in civil and public life owing to their prolonged absence on military duty but in many cases their families have been obliged to appeal to the county poor board for aid or go to the poor house because of the small pay received by a private or bluejacket.

As Norway has compulsory service for all able-bodied men, every male over eighteen years of age is on the rolls of the army or navy and even if he has completed the peace service fixed by the law he can, in case of emergency, be called upon to serve for any length of time. If he does not respond to the call he will be tried by court martial and heavily punished.

Since the beginning of the war many of these conscripts, especially in the navy and in the garrisons, have served month after month, no matter whether married or single, and there have not been enough men to relieve them after only a short service. This means that many of them are losing their positions and their families are suffering.

A soldier during his service is paid a very small amount—in peace times ten cents a day, and war on duty, such as the neutrality guard is considered, forty cents a day. This amount is too small to support the family at home. The result is that many soldiers have had to allow their debts to pile up with small prospects of being able to pay them off when the military service is over, or apply to the county poor board to support their families, and in numerous cases families have been sent to the poor house.

According to the Norwegian law a person who is supported by the county or who lives in the poor house loses his rights as a citizen, including the privilege of voting. One man who was called into the military service and who refused to respond because he knew that if he did so it meant that his family must go to the poor house, was tried by court martial and sentenced to serve nine months imprisonment and to have his rights as a citizen forfeited. A similar case is now before the court.

BABY ICE MOVEMENT WELL UNDER WAY

Ice Tickets Are Distributed by District Nurses on Her Visits.

The baby ice movement started recently in this city is now well under way and bids fair to meet with decided success here. Some weeks ago when the plans were announced the sum of \$100 was asked for in subscriptions to carry on the work. The sum has been raised and the work started. Tickets have been printed and are distributed by the district nurses on her calls. They are distributed wherever the nurse decides they are needed, and when they are given out they are signed and dated by the nurse. The tickets are then presented to the local ice men who supply the demand. Those in charge of the movement are very much pleased to learn that the tickets are recognized by the local ice men.

It is planned to start in a small way and gradually increase the scope of the movement. It is possible that the baby ice movement will include a milk station next year.

Houses in Naples and the southern part of Italy are built of "tufo," a soft porous stone. These houses are not plastered. The stone is first thoroughly wet and the first coat of plaster is applied. Later the putty coat is applied.

RENEWED TESTIMONY

No one in Norwich who suffers headache, backache, or distressing urinary ills can afford to ignore this Norwich woman's twice-told story. It is confirmed testimony that no Norwich resident can doubt.

Mrs. Margaret Brown, 840 West Main Street, Norwich, says: "My back and kidneys were in a bad way. I suffered much from a dull, heavy ache in my back. It grew worse gradually until it was almost impossible for me to get out of bed mornings. I continued in this condition for nearly a year, trying medicines prescribed for relief, but without avail. Finally I happened to hear of Doan's Kidney Pills, and procuring some at Sevin & Son's Drug Store, found them just what I needed. My kidneys are now acting regularly, the pains have left and I can get around all right."

(Statement given July 22, 1911.)

On May 25, 1916, Mrs. Brown said: "At times when a cold settles on my kidneys and causes my back to ache, I use Doan's Kidney Pills and they never fail to give me prompt relief."

80c. at all dealers. Foster-McBarn Co., Mfgs., Buffalo, N. Y.

Your Bowels Should Move Once a Day

A free easy movement of the bowels every day is a sign of good health. Dr. King's Great Peppermint Cure gives you a gentle laxative effect without griping and free your system of blood poisons, purify your blood, overcome constipation and have an excellent tonic effect on the entire system. Makes you feel like living. Only 25c at druggists.

CUBA DILATORY IN ERECTING MEMORIAL OF THE MAINE

Relics of the Ill-Fated Ship Are Piled in a Heap in the Outskirts of Havana.

Havana, June 21.—Attention is again being called to the long continued neglect of the Cuban government to proceed with the erection of the Memorial of the Maine. Many months ago the two ten-inch guns, the turret plates, the anchor chain and a quantity of shells from the battleship were removed from the rubbish dock where they had lain on the outskirts of the city proper. It was announced that the Memorial, of which these relics were to form a part, was to be erected on that site. The secretary of the "Public Work" decided that the site was unsuitable but no other one appears to have been selected or to be contemplated.

The Havana Post suggests editorially that, as Cuba appears to be indifferent to the raising of the Memorial, the best disposition that can be made of the relics is to carry them out to sea and reverently bury them in the waters of the Gulf at the spot where the Maine ended her "Last Voyage."

POPULAR DRESS WEAVES IN SILKS
